

About Us

Scrubb – it was established in 2010, located in Gurugram (Haryana), INDIA. We have been specialized in the production of high-performance cleaning products by combining exclusive materials with fun, functional designs. Texture changing scrubbers, smell resistant sponges, scratch-free scour pads, Utensils scrubbers, bathroom cleaning scrubbers. We are India's Favourite Sponge company.

Our production facilities cover 3000 square meters with state of art machineries for making all kinds of knitted fabrics used in making scrubbers along with fully automatic ultra sonic welding machines for

manufacturing of scrubbers along with in house flow wrap packaging machines.

We supply products from raw material to semi finish to finish products. Our daily output of making scrubbers is 50000 pcs and daily output of making fabric for scrubbers is 1000 kg's. This capacity allows us to have a total control over the orders of all the customers across the globe from start to finish.

Our company's products are very well established in India, and we export to other parts of the world. Since its establishment, the company has won the trust of domestic and foreign customers with its excellent product quality, reasonable price and perfect and efficient service, and its export business has developed rapidly.

The company has always adopted a strict management system, flexible business philosophy, fine craftsmanship, high production efficiency, and won the welcome of customers. "Adhere to the quality-based, reputation first " commitment, keep up with the development and needs of domestic and foreign markets, ride the tide of the times, and grow rapidly. Our Strong production capacity, excellent production technology, and perfect service system make the company the best among others.
